

“There are a thousand hacking at the branches of evil to one
who is striking at the root.”

Henry D. Thoreau (1817-1862), Philosopher and Anarchist

*******BAND PLAN*******

MISSION OF THE BAND

Rose Society will:

- (1) Create and deliver quality, positive-charged Music to Uplift and Heal humanity
- (2) Push back and neutralize the negative energies of this world with the positive energies we create through Sound (Music)
- (3) Use the Power of Our Music to dissolve the layers of dark enchantments that the world's people are under so they can Wake Up
- (4) Provide inspiration and leadership to other musicians in the world to imitate our musical philosophy so they will create positive energy music
- (5) Return music back to what it used to be instead of what it has become (corrupted)
- (6) Comfort the dying world with our cool beautiful music and our positive attitude

ROSE SOCIETY

The name of the band is Rose Society. Rose Society means a group of alchemists. We are a musical, alchemic society dedicated to turning music from its basic elements to Pure Light. We will do this with musicianship and Higher Thinking called Magicka.

(from wikipedia) In the history of science, alchemy refers to both an early form of the investigation of nature and an early philosophical and spiritual discipline, both combining elements of chemistry, metallurgy, physics, medicine, astrology, semiotics, mysticism, spiritualism, and art all as parts of one greater force.

Alchemy has been practiced in Mesopotamia, Ancient Egypt, Persia, India, Japan, Korea and China, in Classical Greece and Rome, in the Muslim civilization, and then in Europe up to the 19th century—in a complex network of schools and philosophical systems spanning at least 2500 years.

Alchemy is a philosophical and spiritual discipline. Alchemy was known as the spagyric art after Greek words meaning to separate and to join together. Compare this with the primary dictum of Alchemy in Latin: SOLVE ET COAGULA — Separate, and Join Together.

The best-known goals of the alchemists were the transmutation of common metals into gold (called chrysopoeia) or silver (less well known is plant alchemy, or "spagyric"); the creation of a "panacea or the elixir of life," a remedy that supposedly would cure all diseases and prolong life indefinitely; and the discovery of a universal solvent.[

In the case of Rose Society, the “universal solvent” will music made to its Highest Form.

Starting with the Middle Ages, European alchemists invested much effort on the search for the "philosopher's stone", a legendary substance that was believed to be an essential ingredient for either or both of those goals. The Philosophers Stone was believed to mystically amplify the user's knowledge of alchemy so much that anything was attainable.

That's what we're going to do with music!

Starting with the Middle Ages, some alchemists increasingly came to view these metaphysical aspects as the true foundation of alchemy; and organic and inorganic chemical substances, physical states, and molecular material processes as mere metaphors for spiritual entities, spiritual states and ultimately, spiritual transformations.

You can also transform music, too! You can bring it to such a High State Transformation that it actually gains a Soul!

Carl Jung reexamined alchemical symbolism and theory and began to show the inner meaning of alchemical work as a spiritual path.

The Magnum Opus of Alchemy as in The Great Work; mystic interpretation of its three stages:

nigredo (-putrefactio), blackening(-putrefaction): individuation, purification, burnout of impureness; see also Suns in alchemy - Sol Niger

albedo, whitening: spiritualisation, enlightenment

rubedo, reddening: unification of man with god, unification of the limited with the unlimited.

The nigredo for Rose Society will be making the Groove Vibe. The albedo will be when we start making White Light Music.

If we attain the rubedo, then we will hit the “Roll.” This stuff is nuclear and I don't know if there is enough time left on earth to ascend to this enlightened level but we'll find out!

MUSICIANS IN ROSE SOCIETY

Will all be called Roses. Our fans will called Roses as well.

BAND SYMBOL

At the top of the first page. It's a magick symbol to tell the world who we are and to protect people from evil.

A fleur de lis is a flower sign (iris) that means royalty. I believe that if you're going to make music, you do it royally. Traditionally, the fleur de lis is said to signify perfection, light, and life.

The ~Fleur-de-lys~ was originally named the ~fleur-de-Louis,~ after Louis VII, in

1147 A.D. Through time, it changed to ~fleur-de-luce~ which means ~**flower of light**.

This meaning works well as Rose Society because we are going to make White Light Music.

As a sacred flower, the Iris was credited with healing powers and was used in ancient medicine and perfume.

Another reason to use the fleur de lis as a band symbol!

Although the fleur de lis is many things, it also means “the Seventh Son of the Seventh Son,” an occult meaning for mystical.

Fleur de lis also means “your friendship means so much to me,” faith, hope, valor, my compliments.

We’re going to play for the world out of friendship, plus we are going to teach others faith, hope and valor by our music and deeds. Another reason why the fleur de lis is a good symbol for the band.

The iris got its name from the Greek goddess Iris, the goddess of the rainbow, who was a messenger on Mount Olympus. Iris would take messages from ~the eye of Heaven~ to earth by the arc of the rainbow. The word iris also means “eye of heaven.”

The iris is the symbol of Idea and Message. The three leaves of the iris represent faith, wisdom, and valor.

In Rose Society’s symbol, there is a rose. It is a symbol of our name and also because roses are symbols of Alchemy. Although the red, white and gold rose are the basic symbols for alchemy, we’re going to use all colors of roses with what we do. Keep it interesting.

MAGICKA

Magicka is the Power of the Will. Some try to say it’s “mind over matter,” but that’s partially true. It really is a calibration of the Mind, Heart (Compass of the Soul) and the Soul’s Power Center to bring about change. It is also about power generation and the wisdom to use that new power. I will teach you how to think like a magician so you can transform music into a new, positively charged power that will unleash fresh, powerful music and energy into a very ark world.

TABLE OF TRUTH

I only operate on a Table of Truth. I hate all this preventable evil of this world and since everything is lies around us, I have to have the Truth. I will never lie to any of my Roses and I’ll always tell it how I see it. I expect everyone to tell me the Truth, even if it is something unpleasant. You’re working with one of the Best Psychis/Mystics ever born so I’ll probably know already but I’ll want to hear it from you. I can handle the Truth and I prefer to know it so I/we can solve any problems right away. My approach to Reality and problems is that I’d rather have them up front so they can be taken care of before they grow. I want everything to run smooth for the band and for myself!

!!!!ELECTRIC!!!!

Everything is electric, whether it is a positive energy or a negative energy. We are thought forms that a god has given life to by a charge of their electricity. More, we are really holograms that are imprisoned in a prison of flesh which is imprisoned in a universe of material and electricity.

We give off electro magnetic waves and if we learn to control these waves wisely, we evolve into Higher Beings plus get positive changes in our lives and in the world around us.

I will explain how it all works and how you can use it for your own lives and music.

MUSIC

Music is electro magnetic waves. I will show and tell you how they work so we can maximize the Good Vibes (that's what they are) to Uplift and Heal people while at the same time, send evil running!

Since the music industry doesn't have a "Happy" or "Positive" category for music and to avoid getting our music put in the "alternative" box, we're going to call our music "Dutch Funk" (new music deserves a new name anyway). We're going to play a new form of eclectic funk (fusions, so forth) and since we're in Holland, we'll call it "Dutch" funk.

Basically, Dutch Funk is going to be anything we want it to be but it will always be funky cool. We're gonna do other "kinds" of music and personalize it for us to make it very positive and groovy.

(from wikipedia) **Funk** is an American musical style that originated in the mid- to late-1960s when African American musicians blended soul music, soul jazz and R&B into a rhythmic, danceable new form of music. Funk de-emphasizes melody and harmony, and brings a strong rhythmic groove of electric bass and drums to the foreground. Unlike R&B and soul songs, which had many chord changes, funk songs are often based on an extended vamp on a single chord.

Like much of African inspired music, funk typically consists of a complex groove with rhythm instruments such as electric guitar, electric bass, Hammond organ, and drums playing interlocking rhythms. Funk bands also usually have a horn section of several saxophones, trumpets, and in some cases, a trombone, which plays rhythmic "hits".

Why Funk?

Because it's the only kind of music that crosses most platforms of listeners. If we want to reach the largest audience possible, funk is the way to do it. It is also the kind of music where its good stuff instantly becomes classic.

Good funk music is happy, makes you want to dance and creates good Vibes. listening to funk.

Funk is fun!

FIRE AND THUNDER MUSIC FUSED WITH BEAUTY, SWEETNESS AND SPIRITUALITY

I used to sell newspapers on the street and I talked with countless people there about music and not only do they want good music they can dance to, but they want it beautiful and sweet. High Music is beautiful and it is sweet plus it is performed by the Soul. Works for Rose Society!

HAPPY

We're going to play happy music. Many musicians have told me, "You can't play happy!" That's because they're playing negative stuff.

Music in this world is dark and has been for a long time. If you know your history of music, you will know that it was usually always happy until about 1968 or so when the world started really becoming evil. Time to take music back! Time to make it positive and good again! Hopefully, other musicians and bands will see what we're doing and follow...

STYLE

We're going to have roses on our stages and in our videos. We're going to wear roses and (when possible) clothes with roses on them. I'm designing some jewelry with roses and our symbol on them (SMILE). We're going to wear them and sell them as well (to protect the person from evil and to promote the band). If anyone wants to help me design this jewelry, let's do it together!

MUSIC VIDEOS

We are going to perform our music in intelligent, multi-level forms including music videos. I have many university degrees including one in Film, Television and Radio. I started making music videos in the early 1980's with film and I make classic ones! I have an eye for the beautiful and I like to make little stories combined with humor in my music videos.

We want to make people smile, laugh and dance. It's part of the healing process with healing music. We're going to make a new kind of music video. Everything that we make will be light years ahead of anyone else and the people will not only get it, but they will dig it.

Most of today's music videos are sleazy, racist, violent, homophobic, macho, misogynistic (hatred of females), full of soft porn and more plus many are covered in glitter but they yield no substance. I like to do stuff that excites the imagination, evokes positive energy and inspires.

Although some of our videos might be sexy, there won't any soft porn. Any partial nudity will be art and most stuff will be left to the individual imagination of the viewer.

Since we're Bohemian and some of us are Creative and Constructive Anarchists like me, we're going to show the cool side of Bohemian life.

I've got ideas for all kinds of cool videos. I had a lot of scripts but they disappeared when the hard drive of my new computer died last fall. But I know them by heart and they are little cool stories fused with humor, class, beauty, individuality and more.

MUSICIANS

I prefer elite versatiles (top cats who can play more than one instrument) but I'm also interested in musicians who will fit in best with the band. Because we are going to play a new kind of music, I prefer a lot of instruments and I am fanatical that some instruments should be in a band, particularly the flute. Why? It is a lyrical instrument that opens up the good doors of the Soul so the music can go inside.

I want good people who are sweet. Only sweet musicians can do this kind of music. Also, if everyone is sweet, then everyone will bond better. Bonding is important to

do this kind of work.

People have to smile, laugh, groove and hopefully dance if you want to ride with me. Happiness is infectious and if we're happy, our audience will be happy.

You have to be unselfish. We're musicians that play for the audience, not ourselves. A long time ago, musicians used to do this but it went to hell when the world officially went to hell.

All musicians are magicians, whether they know it or not. Music comes from the same realm of magick. Music is a Power but few understand this or how to use this Power to Uplift and Heal the listeners. I'll teach you everything I know about this and I know a lot! I know most of music's secrets plus I'm a Master Magician and a host of other things including an Oracle. I know how it works but truthfully, I never wanted to teach it until now and I will only teach those I deem worthy. If you're in the Band, then I have considered you worthy.

Because we're a new kind of band playing a new kind of music, I want different kinds of people because we're going to play to a wide group of people. Because alchemists seek substance instead of the false values and things of this world, the band members can be old or young, fat or slim, attractive or unattractive, gay or lesbian (Sassy is transsexual), you name it. The more variety of members, the more attractive the band will be to the world. This is important if we want to get our music covering the globe (see Mission at beginning of this Plan).

The Mission of the Band is Anarchist. Therefore, band members have to be "left" and preferably Anarchist.

It is the evil rulers of this world that demonizes anarchists. This is because they fear us and because they own the media, they use the media to turn us into some kind of "terrorists" that threaten somehow "threatens" civilization.

Anarchists are people with large consciences who seek the Higher Things like Truth, Justice and Protection from evil and evil people. Real anarchists are constructionists although there are some things that are so evil that they must be struck at the root and eliminated.

The people who burn cars, break glass and destroy shit are not anarchists! Still, the evil social managers of this world make sure anarchists are associated with these negative people and their destructive behavior.

This is long-hair type of music we're going to do so don't cut your hair if you're in the band! It's long-hair because of the culture and philosophy of the music we're going to play and because hair is an important conductor for energy (magick realm).

You have to have courage to do this kind of music. It really is "hero" stuff but to be a hero you have to have the Heart for this kind of musical quest. Do you have the Heart for this?

SONGS

Because it is self-evident that the world is self destructing and we have little time to *!*!POP!*!* some Light to try to slow/stop the destruction, we're going to play songs based on many things including the "Happy Factor" (how positive the music is).

We're going to do some "covers" but we'll change them to our style to make them groovy/funky. This world is literally running out of time so it's faster to use others'

stuff (when appropriate) and build on that than start on the ground floor with new songs.

I've written about 325 lyrics and/or songs and we can use any of them plus whatever other lyrics/songs members bring to the table.

As for composition, the alchemical process is better with as many composers as possible at the table. One of the reasons why I don't have my lyrics to sheet (and also because my new computer kept failing last year so I lost a lot of time). Sassy, Goose and I can compose but I've been waiting to see who else is going to play with us in case they're composers, too. Composing is a slow process but if there are many geniuses at the table, it can get done much faster and better!

GETTING IN AND STAYING IN

To get our music played to the entire world, we have to get in the music industry (that is easy) and staying there (more harder). I've got a plan for this but because I need to finish this band plan, I will explain it later. I've got degrees in business plus I'm a Systems Scientist (I know how systems work thus I know how to get in). Factor in that I'm very, clever plus I'm working with other geniuses (all my Roses are), we'll get in and we'll stay in. Like I said, I have a PLAN. I've been thinking on this for a very long time and I know what to do.

With popularity will grow fame. This means that the media will be watching us and we will probably be featured all the time in the star/gossip magazines in Holland. Try to keep your personal lives as clean as possible because the media tends to turn any dirt they find on you into scandal or gossip or tabloid news or all.

I've got a past like everyone else and if the media gets trashy with me, well I can handle it. You've got to be tough to do what we're going to do but we need to make our decisions carefully not just to protect our Precious Souls (what affects our Lives directly affects our Souls) but to try to keep it low...

AMRITA RECORDS

We will stay independent. The big record companies will try to sign us, but those are slave chains!

Although many people think that the darkening of music was either accidental, evolutionary or both, it's not! I know exactly WHY music is dark. Yes, it has been contaminated by the evil economic system called capitalism, but there are demons behind the scenes who have "framed" music to be mostly dark, depressing, corrupt, Soul-sucking, so forth.

Music has been corrupted to corrupt people thus make them more susceptible to the temptations of evil plus corrupt music (remember, it is an energy that can be good/positive or bad/various shades of negative). Not only that, negative energy makes people weak and when people are weak, they are more easier to control! That's the way energy works. There's more to this and I will explain it in detail later. You have to know the Truth about Things so you'll know why our music is so needed plus it will help in the creation, practice and delivery of our Power!

Yes, I said Power. We are going to build on the foundations of music to **Create Power!** Sound is a Power. Music is the Pinnacle of Sound, thus Music is a Greater Power. Deliver that Powerful Music with Magickal Thinking and that Power becomes Amplified (by Our Souls) into a Giant Explosion of Good Power (SMILE)

to Uplift and Heal our Audiences! (SMILE) Play with the Magic in Your Heart, use Elite Magickal Thinking in every aspect of band thinking and creation, and Learn to Use the Power of Your Soul to Revolve and Evolve the Energy of the Music and you create “The Force.” I’ll explain that better later, too.

To stay independent, we will produce our own music under the label “Amrita Records.” Amrita is the ambrosia of the gods and when you drink it, you become immortal. I want Rose Society and all the Roses to be immortal, so this name works. It’s a good symbol!

SYMBOLS

Symbols are important. Like everything else, they attract (or repel) energy. When they are devised/invented with Higher Thinking and magickal intent, they fill with directed energy and give off electro magnetic waves to cause effects. I will teach you more about this later.

CHANGING THE ENERGY

When I don’t like something, I change the energy. That is what we’re going to do with music: Change the Energy. I’m sick of living in a dark world with dark music that makes us sick physically and Spiritually. Since the beginning of Time, music used to heal and calm people. Now a lot of it harms people instead. We take it back!

HUMILITY

We serve humanity in this Grail Quest. There will be no “stars” in the band. Everyone is equal and have the same equal right to songs and videos that showcase their talents.

LEADERSHIP

One of the primary reasons why bands fail is because there is no identifiable leadership. I believe in democracy but if there’s an impass, someone has to make “executive” decisions. That will be me. Ricardo/Sassy is my Right Hand and second in command.

All my decisions (and Sassy’s decisions) will be always be made with the band’s best interest at heart.

MERCHANDISE

Because Rose Society will be 7 or 8 members (depends on if we get a horn player), we will sell merchandise at our gigs so band members will make some money and our band symbol against evil will go out far and wide to protect people.

Merchandise will reasonably priced so our customers can afford the merchandise and will include t-shirts, mugs, banners, posters, jewelry and whatever else we can think of.

ROYALTIES

All royalties from songs written from the band will be split evenly between all band members. Jim Morrison of the Doors did this and this was very wise.

We will have to pay royalties to the owners of the covers we do but the money left over will be split evenly with all members of the band.

Any royalties received from any of my lyrics/songs performed by other musicians or bands will also be split evenly between all band members. You help me, I will do all

I can to make sure you're taken care of.

FAST TRACK

Because the world is running out of time, we have to do everything on a fast track. I've been given permission from Heaven to take short-cuts. Learning magick takes a long time but we don't have that time so we're going to cut out a lot of protocol and private teachings (discovery of the self) to do this alchemical music created with the Higher Thinking.

BIOGRAPHY

My name is Martha Rose Crow and I am one of those persons who was born extraordinary as an advanced person with an advanced mind. I was also born a Pure Anarchist. Most of my life, I was a soft anarchist but then something very supernatural happened to me as I went on a long Spiritual Journey that taught me many things. I came back from this Journey good, wise and Powerful.

I am a Natural Magician. My father comes from a long line of magicians and my mother comes from the Rose family of Bjornenberg, Finland. They are holy people who are famous in Finland because they grow roses near the North Pole as a Symbol of Peace to the World. They've been doing this for over 500 years. The Roses are Laplanders, Samen or Eskimos/Inuits.

All my Life, I have lived a magical existence. Because America was founded by mean Christians to be a mean Christian place, I always had to lay low there or they would have come after me faster than they did. So I was hidden.

My father hid me first. He was afraid the government would take me away and use me for experiments because I was so intelligent. This means that usually after a school gave me an IQ test, the family had to move. My IQ scores were so high that no one could put a number to them.

Later, I would live in American Indian communities to hide. They have great respect for shamans like me and I was always treated well. It was when I lived in white society I was treated like a freak.

When I was a child, I saw a sky full of angels for a whole afternoon and I decided that day that I would try to be good and work my way to Heaven. I've been a Holy Person since then.

I've lived an extraordinary life and my adventures would fill many books. I've seen the best of life and the worst of it and everything in between. I've done many scenes, too, including the music one. I've got lots of stories about that and you will hear some them if they ever come up.

I've always been musical but because I was born "white trash," I never lived in one place as a child to learn one thing well. Instead, just as I was beginning to learn one instrument well, we had to move. So I learned the piano and the flute, but I never really had the lip for the flute. That was a long time ago and later I picked up the guitar to put it down because I was a college student with children and they took all my energy, time and money.

I spent 12 years in universities always trying to improve myself. I earned four university degrees in various disciplines including marketing, management, communication (Radio-TV-Film) and my master's degree is in an esoteric form of psychology called "Training."

I've written 33 books and I'm about to finish my 34th and 35th books. I also write articles.

A lyricist, I'm also a poet. The 34th book I'm finishing now is my 21st book of poetry.

I'm uncorrupt and unprogrammable. I hate religion, sects, cults, fascism, lies, paternalism, authoritarianism, racism, violence, suffering, poverty, negative music, capitalism, the "free market," corruption and evil.

BAND MANAGEMENT

I've always been around musicians all my life, even in my personal life. One of my best friends were Steven and Shirley Wahle. I met Shirley when I was hitchhiking with two bags of groceries and a baby in tow. She gave me a ride and we were friends ever since.

Her husband was Steve and that cat was a fabulous musician! He had his own band, The Stevie Lee Band, and although it was regional, they always had gigs. I used to visit and party with them a lot and one day Steve announces to me that he's had a Premonition and the Premonition was to teach me band management. I didn't want to learn because I wanted to do my music privately and I didn't want to get back in the business. But he insisted and he taught me everything he knew which was quite considerable. He'd even give me tests to see if I learned what he wanted me to learn. I had a strong connection and friendship with these people, so I learned all this stuff I didn't think I'd ever use just to make them happy. But Steve's Premonition was Right. I needed to learn band management and now I'm going to use his golden teachings and wisdom.

Steve died a few years ago. When I got the news, I almost fell over. I wept buckets of tears for a long time mourning his death. Two and a half years ago, his son Eddie who was my son-in-law (married to my daughter Melanie), died. A year later, Shirley died on the same day Eddie died. It tore my world apart! More, during that time, other people in my people circle died including my uncle, some very good friends, my evil ex-husband and my Mother.

This is one of the reasons why I been delayed in starting Rose Society. That and because it wasn't the right Time.

REWARDS

You will get many rewards from doing this great service to people and to Heaven. You will gain Enlightenment. You will save your Soul. You will get a good buzz from this kind of music. You will learn the Secrets of the Universes. Your Soul will become stronger and you will become a better person. You will get to study under a Real Master of Magick (me) and you will become a Magician of the Light. There are a lot of people that want me to teach them Higher Thinking and magick, but I'm only going to teach my Roses.

The rewards are infinite and there will be material rewards as well. I'm sure the band will make money. When I work with a group (as with my old TV show), everything I touch turns to gold. Unfortunately, when the money came in, the people around me got corrupt.

This (and other similar events) was a good lesson for me and it's a major reason why I decided to start my own band so I could filter for the right kind of people this time.

If you play music for the Right Reasons, the Higher Reasons (love of music, make

positive music energy, play for the audience instead of yourself, so forth), the rewards will be greater than you ever imagined.

TIP OF THE ICEBERG

There's a lot more details to this Plan but I promised to get this finished today, so I tried to stay with the highlights. Basically, we're going to collaborate together as musical alchemists to make a new kind of music to Uplift and Heal people. To some it will be cool dance music (with a few ballads to give the audience a break), but most people will get what we're doing and dig it! We're going to tell everyone what we're doing too, so there are no misunderstandings and so evil can't demonize us.

During my Spiritual Journey, I saw many things including the Future. After I came back from the Afterlife, almost all of the things I saw have come true (some are coming true now and in the immediate future). I'm sick of living in this dark, evil world where everything in culture, including music, has become corrupted.

This world is running out of Time and I'm not one to sit on the sofa and wait for it to all play out. It's not me. I'm a Crowned Anarchist (the top) and I want to do something valuable with the time we have left to fight back and change the energy. Sound is an energy and music is a High Form of Sound. Made the right way, music is a Force that can change many things proactively.

There is one thing you must always remember: You never use magick in the creation part of music. You never shortchange the creative process or it will end up biting you in the butt. You have to do the work yourself. You can and should use magickal thinking in the creative process and you can and should use magick to channel and amplify the music. I'll show you how.

MORE

Magickal music gives you a good buzz (morphine for the Soul) and it's addicting (SMILE). It will make you a better person as the Holy Fires of this positive music will cleanse your Soul. The stuff is very healthy and it will make you very healthy.

When you do something for the Right Reason (to Uplift and Heal people plus fight evil), Heaven sees and knows, and doors will open that you never thought possible! Watch, you will see...

Anything worth doing requires a lot of work. Because all of us are literally running out of time, we have to work quickly and cleverly. With the right group of alchemist musicians, we can accomplish our goals, have the best time of our lives at the end of our lives (the world's gonna end) and we will earn our golden rose after we've given our last performance.
